

# Broken Promises

Richie Sambora

Do you know I'm leaving on the midnight train?  
Bought a one way token and I won't be back again

Would you smash the spider  
Hidden in your web  
Move before you're bitten  
And you trapped me in your bed

The girl admits she tells me lies  
She took my soul and I'm taking it back  
Broken promise painted on your lips  
Only loneliness  
Got no love to give, only lies  
Got no love to give, only lies

The girl admits she tells me lies  
She took my soul and I'm taking it back  
Broken promises painted on your lips  
Got no love to give  
All your promises are only lies

Only lies fill your promises  
Painted on your lips  
Got no love to give  
All your promises are only lies

Broken promises  
Got no love to give  
All your promises are only lies  
Got no love to give, only lies
