

Lighthouse

Richie Sambora

When you're blinded, confused
Blue skies seem painted gray
You can't hear the whisper
When an angel calls your name

You're strung out cold
While you fight your personal war
Once upon a time peer pressure crossed a line
Our kids ain't needing needles anymore

There's a lighthouse, there's a lighthouse
Through the fog and the dark
We can brave our heavy load
There's a lighthouse, there's a lighthouse
Find a beacon of hope
'Til we walk down freedom's road

I know it's hard to image
That tomorrow turns bright
But you're heading for safe harbour
And serenity's in sight

Who judge don't matter
Those who matter don't judge
You're swimming with the tide
In the wake of the flood

There's a lighthouse, there's a lighthouse
Through the fog and the dark
We can brave our heavy load
There's a lighthouse, there's a lighthouse
Find a beacon of hope
'Til we walk down freedom's road

We all have broken pieces
Bleeding inside
They obliterate our confidence
And poison our pride

You drifted far from the shore
Livin' dark days alone
There's a beacon of hope
That will lead you home
There's a beacon of love
That will guide you home

There's a lighthouse, there's a lighthouse
Through the fog and the dark
We can brave our heavy load
There's a lighthouse, there's a lighthouse
Find a beacon of hope
'Til we walk down freedom's road
There's a lighthouse, there's a lighthouse
If you just take my hand I will stand with you
There's a lighthouse, there's a lighthouse
There's no telling what true love can do
