

# We'll Get By

Richie Sambora

Our life got interrupted, as wicked as it seems  
Trying to hold on to our happiness and our humanity  
Outside a war is raging, there's fires in the streets  
Brothers fighting brothers while mothers pray for peace

It takes all kinds of courage, it takes all kinds of brave  
To stand up to our enemies for ones who try to save  
Many days of climbs uphill  
Just living trust to test your will  
If you'd see through your children's eyes  
You'd see they're seeing different lives

Choosing love over hate  
Chasing danger to save  
Shaking out a new day

I believe, I believe, I believe, I believe  
We'll get by  
Baby, we can make a change, at least we got to try  
Woah, we'll get by

The restless and the faithful who've got their alibis  
They say our days are numbered and we're dying to survive  
Might be a smile from a stranger or kind word from a friend  
Changin' hate into forgiveness and lead us home again

Choosing love over hate  
Chasing danger to save  
Shaking out a new day

I believe, I believe, I believe, I believe  
We'll get by  
Together we can make a change, at least we got to try  
Woah, we'll get by  
I believe, I believe, I believe, I believe  
We'll get by  
We'll rise above indifference and the poverty inside  
Woah, we'll get by  
I believe, I believe, I believe, I believe  
We'll get by

Be kind to one another  
Respecting one another  
Together we may find a kind of path  
Too many songs remain unsung  
Too many bells remain unring  
Let every voice beat every drum  
Ain't no time and change to go

We'll get by  
We'll rise above indifference and the poverty inside  
Woah, we'll get by  
I believe, I believe, I believe, I believe  
We'll get by  
Together we can make a change, at least we got to try  
Woah, we'll get by  
I believe, I believe, I believe, I believe

We'll get by

Be kind to one another

Be kind to one another

Together we may find a kind of path...
