Richie Spice

Fire make we burn them down, hey yeah
Come on make we chant them down

Rastaman bawl fire make we burn them soul
I hear nuff a them a talk 'bout we too cold
The half of the story has never been told
Hotter redder fire fi the wicked enemy

True me say fire make we burn them soul
I hear nuff a them a talk 'bout we too cold
I hear nuff of the story has never been told
Hotter redder fire fi the wicked enemy

True me say one ball of fire and we burn them corruption
One ball of fire and we burn them pollution
Hey I hear them bawl out speed
What a rat race every man want to lead
Hotter redder fire burn out them bad seed

Rastaman fire make we burn them soul
I hear nuff a them a talk 'bout we too cold
The half of the story has never been told
Hotter redder fire fi the wicked enemy

Rastaman fire make we burn them soul
I hear nuff a them a talk 'bout we too cold
The half of the story has never been told
Hotter redder fire fi the wicked enemy

We tell them still
Jah have the power and a him have the will
If you don't keep calm than you going draw nil
The righteous and the humble alone cup shall fill
Hey me tell them cease
Me say see nuff a them a run grab up mark of the beast
Promote pure water and them nah hold the peace
Put another fire on the colonel police

The righteous alone shall stand
So I burn them corruption
