

# Back in You Again

Rick James

Yeah, uh a one two a one two  
A one two a one two  
Yo yo yo yo Uh one two one two  
Let me get that Uh one two uh one two  
Let me get that Uh one two uh one two  
This hear Uh one two uh one two  
Is SoSoDef Uh one two uh one two  
Ya know Uh uh uh one two one two  
Come on, yo Cease  
Come on

I'm the one they call Cease, did you get that?  
Peep the John Hancock, P.S. - let me hit that  
And flip that, on video  
You and me yo, is you wit' that  
And Scotta to Prada, can you fit that?  
Let me get that

Girl you don't know the trouble that I'm in  
The stories long, so let me see where I'll begin  
So baby please listen as I run this down  
My life is on shaky ground, yeah  
Something very funky happened just the other day  
Busted by the man for just getting it my way  
Girl don't you see, it's as strange as it can be  
Now everybody's out to get me  
I'm glad to say

Glad to say that I really missed your sexy way  
Here I am girl, back in you again  
Since I've been gone, I thought about you everyday  
Here I am, back in you again

Here we go

One minute I'm in jail, the next I'm on the run  
Buellets are chasing me from gangstas and police guns  
But all I do is think of you and our new child-to-be  
And suddenly I'm free yeah  
Funky situation but you must believe  
I'm still the man that loves you, yeah  
Girl you know me and you know I wouldn't hurt no one  
So now you see I'm on the run, yeah  
I'm glad to say...

Huh, wha Uh one two uh one two  
I'm diggin' you baby Uh one two uh one two  
Diggin' you diggin' you Uh one two uh one two  
Girl it feels so good  
to be back in you again

See I remember when I used to make you moan  
In the back of my Caddy (give it to me Daddy)  
Now I jump shift in the chrome 420 (ooh)  
It's all about the money  
Is you the kind of girl that want carats like the bunny?  
So I blaze a lot, you crave a lot

And pop to make my spot hot, not (uhh yeah)  
At last, all it takes is green and hash  
A little bit of cash and I'm back up in dat ass, wha (uhh)

[Chorus (repeat to fade)]
