

## Alien Virus

Rick Springfield

Baby where were you? I waited for hours  
Up in the sky was a strange light  
You know comets are falling and UFO's are calling  
Where were you last night?  
You used to be beautiful, baby alright  
I don't even recognize you anymore

I think maybe some alien virus infected your heart

I'm not waving I'm drowning baby  
Who's that one I see you with?  
You've been out walking and monkeys are talking to a black mono  
lith  
I don't want to be in this skin, baby not tonite  
I want to be in the one he's in (the one you want)

I think maybe some alien virus infected your heart

You used to be all mine, baby all night  
I don't even recognize you anymore

I think maybe some alien virus infected your heart
