

Neutron Star

Rick Springfield

Whoa, whoa, whoa, whoa whoa
Whoa, whoa, whoa, whoa whoa

Skirt tight, snow white, in the limelight of the singles bar
A Black swan, Don Juan he's drawn to your neutron star
Another scalp and a song in the making
A cry for help, but you think he's faking
And all the social media platforms
Eat it up (eat it up) another one of your shit storms

You're a neutron star watch you burn tonight
But you wear your heart like a satellite

When you sleep you keep your secrets all well fed
They're notched, binge-watched in the headboard of your bed
You're so at ease in the heat of the moment
But by degrees you're your own opponent
And when your make up runs in the rain
Suck it up (suck it up) suck it up like its champagne

You're a neutron star watch you burn tonight
But you wear your heart like a satellite
You're an avatar you love at the speed of light
Like a neutron star you collapse the night

You're a neutron star watch you burn tonight
But you wear your heart like a satellite

Whoa whoa whoa whoa whoa (You're a neutron star)
Whoa whoa whoa whoa whoa (You're a neutron star)
Whoa whoa whoa whoa whoa (You're a neutron star)
Whoa whoa whoa whoa whoa (You're a neutron star)
