

## Take a Hand

Rick Springfield

Turn up your radio and put your ear to the sweet, sweet music  
And take your baby and hold her in your arms  
And hear the music go "Ooh ooh"  
And if you're feeling like it go get your lover  
And reel and rock her and roll it over  
And hold her tighter, hold her tighter  
It's what she needs

You've go to take a hand, take a hand  
You've got to let her know  
Take a hand, take a hand  
You've got to let it show

Turn up the music and put your ear to the radio  
And take her gently and rock her in your arms  
And hear the record go "Aah aah"

And if you're feeling like it go get your lover  
And reel and rock her and roll it over  
And hold her tighter, hold her tighter  
It's what she needs  
You've go to take a hand, take a hand  
You've got to let her know  
Take a hand, take a hand  
You've got to let it show
