

# Time Stand Still

Rick Springfield

Time stand still  
Freeze your hands  
Bend your will  
Change your plans

Burning seconds into minutes on my way to seize the day  
Stolen moments as a lifetime seems to fly away  
Wait for me  
A little longer I'm not sure if  
I'm awake  
Pinch me if it's all a dream

Ticking clocks and wake up calls  
tell me that I'm growing old  
Why don't you let time stand still

Time stand still  
Raise your glass  
A quarter till  
A future past  
Turning hours into weekends hoping for a better day  
Frozen moments in a lifetime that has run away  
Wait for me  
A little longer I'm not sure if  
I'm awake  
Pinch me if it's all a dream  
MTV and shopping malls  
tell me that I'm growing old  
Why don't you let time stand still

Burning seconds into minutes on my way to seize the day  
Stolen moments as a lifetime seems to fly away  
Turning hours into weekends hoping for a better day  
Frozen moments in a lifetime that has run away

Wait for me a little longer I'm not sure if  
I'm awake pinch me if it's all a dream  
Ticking clocks and wake up calls tell us that we're growing old  
MTV and shopping malls tell me that I'm growing old  
Empty words on telephones the greatest story never told  
Why can't you let time stand still
