

## Weep No More

Rick Springfield

You left the room, without a sound  
And as you both walked out, the people still  
were dancing 'round  
And when you touched, did it feel so bad  
You didn't pull away, but now you wish you had  
My baby's sad

Weep no more, I'm here beside you, even though  
you let me down  
Weep no more, let my love guide you, shelter  
you from all around  
Na Na Na Na  
Na Na Na Naaaaah, Na

Were you wrong? Did you go too far? Sitting with  
him in the back seat of the car  
Though you were young, I guess he thought you knew  
Now it's just a little while before the baby's due  
My baby blue

Weep no more, I'm here beside you, even though  
you let me down  
Weep no more, let my love guide you, shelter  
you from all around  
Na Na Na Na  
Na Na Na Naaaaah, Na
