

Robot Man

Rick Wakeman

I had doubts as to where we're going
But you gotta hand it to the guys upstairs
I've been put on a whole new programme
Don't have to handle my own affairs
Everything I want is on my print-out
I don't need anything any more
I'm not confused by useless knowledge
I don't even know if it's 1984 for sure
Rules rule ok ask no questions
Welcome to the age of consent
Fasten seat belts drive with caution
Don't take shots at the president
Robot man is a wonderful creation
Automatically obeys the law
Laws of nature, man and physics
I don't even know if it's 1984 for sure
1984?
The only thing you have to know
Big brother is watching you
You love him
Robot man is a wonderful creation
Automatically obeys the law
You love him, you love him, you love him
I don't even know if it's 1984 for sure
The only thing you have to know
Big brother is watching you
You love him
What I need is a real emotion
A little love and a lot of despair
Robot man has a problem breathing
Robot man don't know how to care
Payed my dues but the dudes don't listen
I'd cry out but who the hell for?
I'd love to know what is means to suffer
I don't even know if it's 1984 for sure
1984?
