

## Done With It

Ricki-Lee

When I'm a thousand miles from you  
all alone in some hotel, you think that I like it?  
(Idont know babe)  
I try to call you on the phone,  
but your not answering my calls  
You think that I like it? (Let me tell you something)

All the crowds, the smiles, the lights, the fame  
the laughs, the photographs  
It dont mean nothing no, no, no, no, no  
If I cant share it with you

I'll be done with it, I'll come home anytime ou like  
I'll drop everything just for you, I will throw it all away for  
you  
I'll be done with it, If you say that you want me to  
'Cause your love means the world to me  
and I would throw it all away for you

I only wish you'd understand, that I'm doing what I gotta do  
I know it takes me from you, but thats the way its got to be  
I recognise your pain 'cause I go through the same  
At times I'm all alone, at times I feel like

All the crowds, the smiles, the lights, the fame  
the laughs, the photographs  
It dont mean nothing no, no, no, no, no  
If I cant share it with you

I know times you'll be sitting around  
waiting for me to come home  
It's hard 'cause I am doing this for, me and you
