

Something About You

Ricki-Lee

You were my best friend, someone I won't play around
And there's a river in me, don't let it flow now
So don't play around, oh yeah I love you

Oooohhh I love you, I love you
I love you, I love you babe
Oooohhh I love you, I love you
I love you, I love you babe

You give me, so much good love
I don't ever wanna let you go
'Cause you give me, all I've ever dreamed of
I know that it's cliché but there's
Something about you baby

Whenever I'm down, I know you will pick me up
'Cause you know me better than I know myself
And it's getting hard, to keep quiet
So don't play around

Oooohhh I love you, I love you
I love you, I love you babe
Oooohhh I love you, I love you
I love you, I love you babe

You give me, so much good love
I don't ever wanna let you go
'Cause you give me, all I've ever dreamed of
I know that it's cliché but there's
Something about you baby

I know, I know, I know, I know, I know, I know, yeah
I know, I know, I know, I know, I know, I know,
But baby, baby, baby, no baby, baby, baby

You give me, so much good love
I don't ever wanna let you go
'Cause you give me, all I've ever dreamed of
I know that it's cliché but there's
Something about you baby
