

# Thunder and Lightning

Ricky Dillon

It's time to party, we're gonna dance like nobody's home  
Take it to the next level, get ready to go

So just throw your cares away  
That's right, that's cool, guess that's something we can do  
C'mon, I'll show you all the way  
That's right, you know, now follow me

We're causing a storm with this energy  
Come out and dance in the rain with me  
Turn up the music as everyone sings  
Let's make it boom like thunder and lightning

-instrumental-

Electrifying, it's a movie tonight  
Feeling epic, slide right to the vibe

So just throw your cares away  
That's right, that's cool, guess that's something we can do  
C'mon, I'll show you all the way  
That's right, you know, now follow me

We're causing a storm with this energy  
Come out and dance in the rain with me  
Turn up the music as everyone sings  
Let's make it boom like thunder and lightning
