

Talk To You

Ricky Montgomery

Been a pretty long time
Been a pretty long time
Since you saw me last
Since I saw you last
Wonder if we met today
Would it all end up the same?
Would you take me for a ride?
Would you toss me to the side?

I wish I could talk to you
Put my chair right up there next to you
And talk to you, ooh baby (What? No...)
I wish I could talk to you
Pull my chair right up there next to you
And talk to you

You're in my head more often than I want
More often than I wanna tell you
You're in my head more often than I want
More often than I want

Been a pretty long time
Been a really long time
Since you saw me last
Since I saw you last
Wonder if we met today
Would you turn and walk away?
Would you take me for a ride?
Would you toss me to the side?

I wish I could talk to you
Pull my chair right up there next to you
And talk to you, ooh baby
I wish I could talk to you
Pull my chair right up there next to you
And talk to you

You're in my head more often than I want
More often than I wanna tell you
You're in my head more often than I want
More often than I want
You're in my head more often than I want
More often than I want (I wish that I could talk)
You're in my head more often than I want
More often than I want

[illegible]

I wish I could talk to you
