I Rise, I Fall

Ricky Nelson

I rise, I fall with each little thing you do You hurt, I hurt, I'm that much a part of you And when you're happy, baby well I'm happy too Since I'm that much... a part of you

I rise, I fall with each little breath you take You cry, I cry, 'cause I feel the same heartache And when you're smilin' baby, I smile too Since I'm that much a part of you

Your lips are my lips My heart is your heart Never let us be further than Just a breath apart

I rise, I fall with each little thing you do You hurt, I hurt, I'm that much a part of you Everything that you feel, baby, I feel it too Since I'm that much a part of you

Everything that you feel, baby, I feel it too Since I'm that much a part of you A part of you A part of you A part of you
