

I've Been Looking

Ricky Nelson

I've been lookin' all over town for you
I don't know much about you but I know you're someone blue
I'm a lad without love and I'm simply mad about love
And I've been turnin' this whole town upside-down for you

I spent a wonderful evening
Sitting all alone and grieving
I know that you believe in having fun too
I'm anxious to meet you miss whoever you may be
So come on out and spend a wonderful evening with me

I've been lookin' all over town for you
I don't know much about you but I know you're someone blue
I'm a lad without love and I'm simply mad about love
And I've been turnin' this whole town upside-down for you

I know you don't wanna be lonesome
You've got the kisses and I want some
Why don't you want to come close, some nice little place with me
I'm anxious to meet you miss whoever you may be
So come on out and spend a wonderful evening with me

I've been lookin' all over town for you
I don't know much about you but I know you're someone blue
I'm a lad without love and I'm simply mad about love
And I've been turnin' this whole town upside-down for you
