

# Moonshine

Ricky Nelson

Last time she walked by  
I walked by, I didn't see her  
This time in the light  
She caught my eye

It must be the moonshine makin' me feel like love all over  
Moonshine making me feel like a peppermint clover  
Moonshine please shine down on me

My new nana sittin' by my side  
All those moonless nights  
And all the times I cried, moon heartache

Moonshine making me feel like a peppermint clover  
Moonshine please shine down on me

Tonight an' always, keep us company  
Shine tonight and always for everyone to see  
Like a moonbeam

Moonshine makin' me feel like love all over  
Moonshine making me feel like a peppermint clover  
Moonshine please shine down on me

Moonshine makin' me feel like love all over  
Moonshine makin' me feel like love all over  
Moonshine makin' me feel like love all over
