

Back Where We Belong

Ricky Skaggs

Feelin's low tension high
That's the way things were last night
Compromise in short supply
Two hearts throwin' stones

I swallowed pride called a truce
Stubbornness nearly cooked my goose
I drew a queen when I burned the deuce
We're back where we belong

Back where we belong
Now I know where we went wrong
Not enough weak and too much strong
Back where we belong
I can testify
Love can kiss the tears goodbye
You've been there and so have I
Back where we belong

Who's at fault or who's to blame
Waste of time, baby what a shame
There's no excuse for playin' games
Back where we belong

A soft caress, a tender kiss
I don't recall it as sweet as this
Makin' up for what we missed
Back where we belong

Back where we belong
Now I know where we went wrong
Not enough weak and too much strong
Back where we belong
I can testify
Love can kiss the tears goodbye
You've been there and so have I
Back where we belong

Back where we belong
Now I know where we went wrong
Not enough weak and too much strong
Back where we belong
I can testify
Love can kiss the tears goodbye
You've been there and so have I
Back where we belong

Back where we belong
Now I know where we went wrong
Not enough weak and too much strong
Back where we belong
Back where we belong

Back where we belong
Where we belong
