

# Don't Send Me No Angels

Ricky Van Shelton

When the storm clouds gather  
And I'm losing my way  
She stands right beside me  
She lights up my day  
She's the one thing I've found right  
In a world that's gone wrong  
She's the words and the music  
To the worlds finest song

Lord let me keep her  
At least for a while  
I promise that I'll love her  
Untill I walk my last mile  
When the trumpets start sounding  
And you're calling me home  
Don't send me no angels  
Cos I've got my own

Lord let me keep her  
At least for a while  
I promise that I'll love her  
Untill I walk my last mile  
And when my eyes close forever  
And my last breath is gone  
Don't send me no angels  
Cos I've got my own

Don't send me no angels  
Cos I've got my own
