Love Is Burnin'

Ricky Van Shelton

Well, the morning that I met you, baby, I could feel the heat
My blood started fallin' from my head down to my feet
You started a fire way deep down in my soul, baby, in my soul
Now, this love is burnin', burnin' out of control

[?] and touch like this
You're melting me like butter with that sizzling kiss
With your arms around me, I ain't never cold, baby, never cold
'Cause this love is burnin', burnin' out of control

We got a red hot love with a blue tipped flame
We could not drown this fire in a hurricane
Well, I got the fever and I can't get enough
Somebody take my temperature, I think I'm burnin' up

[?] man in this heart stone
I'll never be the same, baby, you'll never be alone
Well, I mean what I'm saying, I ain't blowin' no smoke, ain't b
lowin' smoke
This time, love is burnin', burnin' out of control

Got a red hot love with a blue tipped flame
We could not drown this fire in a hurricane
Well, I got the fever and I can't get enough
Somebody take my temperature, I think I'm burnin' up

We got a red hot love with a blue tipped flame
We could not drown this fire in a hurricane
Well, I got the fever and I can't get enough
Somebody take my temperature, I think I'm burnin' up
