

CAN'T WIN EM ALL

Rico Nasty

Crash out, go AWOL, I don't wanna talk
Red flags, I seen them but I let you walk
Outlined all my issues should've wrote in chalk
You wouldn't believe all the shit that I saw
Can't show you my colors, you probably look the other way
Got my mood ringing you just made a brand new color wave
Blocked you from the main, so you went and made another page
Shit ain't been the same, it don't matter what the fuck you say

Soften me up, scared of the fall (Scared of the fall)
Is it ever enough? (Is it ever enough?) Can't win 'em all (Can't win 'em all)
Soften me up (Can't win 'em all). Scared of the fall (Can't win 'em all)
Is it ever enough? (Can't win 'em all) Can't win 'em all (Can't win 'em all)

Put you on a pedestal, put you on a game
It's already clear that you put it through the same
Before you got with me, you didn't have a name
How can you look at yourself? You should be ashamed

Patient to a point, but this medicine too strong (Huh?)
Couldn't sleep without you, now I'd rather be alone (Uh-huh)
Used to talk real sweet to you, I had to switch my tone
Diving head first, going into the unknown

Soften me up, scared of the fall (Scared of the fall)
Is it ever enough? (Is it ever enough?) Can't win 'em all (Can't win 'em all)
Soften me up (Can't win 'em all). Scared of the fall (Can't win 'em all)
Is it ever enough? (Can't win 'em all) Can't win 'em all (Can't win 'em all)

Don't wanna curse it, don't wanna force it
Show no emotion, I've been broken

Soften me up, scared of the fall (Scared of the fall)
Is it ever enough? (Is it ever enough?) Can't win 'em all (Can't win 'em all)
Soften me up (Can't win 'em all). Scared of the fall (Can't win 'em all)
Is it ever enough? (Can't win 'em all) Can't win 'em all (Can't win 'em all)
