

## Future Love

Ride

I see you  
Are we drunk on morning dew?  
'Cause I can't say your name  
But you've got me going  
Yeah, you've got me going

Skies are blue  
And I can do anything  
And the days seem so long  
Now you've got me going  
Yeah, you've got me going

You had me from the start  
Pulling all the stops out  
On the down low, secretly  
But I think you knew  
Your psychology was working on me

Infatuated  
And doing this all wrong  
You've got my number and my name  
And you've got me going  
Yeah, you've got me going

Can I see you every day?  
Do you love me like I love you?  
Ah, you've got me going  
Yeah, you've got me going

Ah, oh a future love can never fail  
Ah, oh a future love can never fail

You've got me going  
You've got me going

You've got me going  
You've got me going  
You've got me going  
You've got me going
