

## In This Room

Ride

Everything has been leading here  
I always wanted to be  
In this room  
How they come and go  
And I want to know what they know  
In this room  
You and I are dominoes  
Collapse one at a time  
In this room  
And I'm starting to understand  
What it really means to be  
In this room

This is not a safe place to be  
You didn't think it was  
When you lined up to sign your name  
This is not a safe place to be  
And no one cares  
If raving and drowning do look the same

So I see them all arrive  
All of them promising the world  
In this room  
Taking the game for all it's got  
Before it snatches back the lot  
In this room  
I'm not exactly a fly on the wall  
Or anything at all  
In this room  
I turn up, turn it on  
Try to play in tune  
On this song

This is not a safe place to be  
You didn't think it was  
When you lined up to sign your name  
This is not a safe place to be  
And no one cares  
If raving and drowning do look the same
