

## Jump Jet

Ride

And a jet could take me far  
But I couldn't escape this feeling  
That I don't know where I'm bound  
If I did get away  
Am I trapped or just worn down?  
I work hard, and I miss my family  
And the wheels of industry  
Keep on grinding away

This is life on the outside, yeah  
This is life on the outside, yeah  
This is life on the outside, yeah

As the engines start to roar  
We keep working to keep this feeling  
We're not human anymore  
We're just ticking away  
The machine is on our side  
As it was, as it's in the beginning  
It's becoming self aware  
And we're fading away

This is life on the outside, yeah  
This is life on the outside, yeah  
This is life on the outside, yeah

This is life on the outside, yeah  
This is life on the outside, yeah  
This is life on the outside, yeah
