

## Kill Switch

Ride

When it hits the fan  
Jeopardy crashes the wars you wage  
When the truth gets served  
The game is up - you go down in the next stage  
This party's nearly done  
And I got no more of this left for you  
I wanna kill your sound, make the right noise...  
Hit the kill switch

So what do you do  
When you're not talking over everyone?  
What do you do  
When you're not just playing up your own game?  
This party's nearly done  
And there's nothing on you, not a stitch  
I wanna kill your sound, make the right noise...  
Hit the kill switch

This party's nearly done  
And there's nothing on you, not a stitch  
I wanna kill your sound, make the right noise...  
Hit the kill switch

Hit the kill switch  
Hit the kill switch  
Hit the kill switch  
I wanna kill your sound, make the right noise...  
Hit the kill switch
