

## Kiss U Goodbye

Rie fu

Kinda getting messy, killing all the time  
Lying down on messy floor, killing all the time  
Kinda getting steep let it go or let it sleep  
Gonna take it on spray it  
Till it's dirty green

Why don't u kiss me goodbye  
Until u run and u hide  
U could just get it all together  
I'm gonna kiss u goodbye

U wanna be the one to get off,  
When all that's left is a  
One-way ticket right here  
U wanna be the one to get it,  
Not just spread it, don't let it disappear

Know it's getting busy killing all the time  
Got it from the radio, killing all the time  
Recalling what he said dream of other people's lives  
Udrneath the head, there a hasty thief replies

Why don't u kiss me goodbye  
Until u draw and u tie  
U could just put it all together  
I'm gonna kiss u goodbye

U wanna be the one to get off,  
When all that's left is a  
One-way ticket right here  
U wanna be the one to get it,  
Not just spread it, don't let it disappear

You could just put it all together  
I'm gonna kiss u goodbye  
I'm gonna kiss u goodbye  
Until u draw and u tie  
The consequence of what's committed,  
Break it up or let it,  
But u won't let it kiss u goodbye  
I'm gonna kiss u goodbye  
Until u draw and u tie  
The consequence of what's committed,  
Break it up or let it,  
But don't let it kiss u goodbye
