

When everybody's looking down on me  
I hope God's looking down on me too  
Watching me hug my huskies  
Making sure that they still love me  
'Cause when the world comes tumbling down  
And everybody walking down with their hand out  
'Cause I'm the man now  
I hope God's looking down on me too

I didn't ask for this  
I begged for it  
I got down on my knees and I prayed for this  
Wishing I could have everything on my wish list  
Even when it's not Christmas  
Last December 25th I ain't come downstairs  
Already knew that nothing was there  
But a whole mess of Husky hair  
The lord answered my prayers

When everybody's looking down on me  
I hope God's looking down on me too  
Watching me hug my huskies  
Making sure that they still love me  
'Cause when the world comes tumbling down  
And everybody walking down with their hand out  
'Cause I'm the man now  
I hope God's looking down on me too

When the show comes to an end  
And taking pictures for their Instagram  
I had enough of the whiskey and gin  
These hotel walls keep closing in  
I can see the four horsemen  
Riding in with their hair in the wind  
I prayed to God last night  
As I held my huskies tight  
Under moonlight

When everybody's looking down on me  
I hope God's looking down on me too  
Watching me hug my huskies  
Making sure that they still love me  
'Cause when the world comes tumbling down  
And everybody walking down with their hand out  
'Cause I'm the man now  
I hope God's looking down on me too
