Wintertime coming soon so I gotta cop a fur  
Big Bag of Gorilla Glue hanging out a purse  
Can't rock a backpack 'cause it don't fit, uh  
Liquid Lava ghost with a tangerine kit  
Big Ballers don't wait, might hesitate, uh  
I can make meditate, make my trunk levitate  
Jody Highroller diamonds on my license plate  
Driving back to Florida state, collect call from Bill Gates  
He bought my cell phone, teeth platinum, not chrome  
Security cameras in Rome just in case I ain't home  
Pay back my school loans, more snow than home alone  
It's the white Jerome Bettis, leprechaun Versace lettuce  
Sapphire Spaghetti, in your dreams like Freddy  
Give me the bad news first then give me the goods  
Stuffed a half-pound of spinach in the backwood  
Riff Raff

You are now listening to...

Yeah, you know me, Riff Raff  
I ain't 'bout to take it easy on 'em  
120 down the highway on a Harley  
Buzzed on a little barley, hit the party  
With a stylish, slick performance  
Caution, boy, peep the warning  
Y'all don't wanna dance in the rain  
But I'm in the puddle with the pepper spray [?]  
Bored with the chords, bored with the floors  
Chopping, dulling my sword  
Kill the beat when I record, I'm  
Back and forth in the morgue  
Lit like fans on tour  
I'm a light through the crack in the door  
With a red rag, a matador  
Rick E. Bobby lapping 'em, boy  
Ain't never been in a party one time  
Without a fifth of Bacardi, smokes and one dime  
But buddy I'm here to tell you with or without a [?]  
I get [?] and represent mine  
That's word to Tech N9ne [?]  
[?] Big K.R.I.T., I swim with all sharks  
The prince of all darkness ran for my spot  
But thunder drops hard [?]  
Yeah [?]  
Call me [?] slim the [?]

And with this heat, dog, I sink the beat, though  
Yeah, for the people  
By the people, what's the answer?

Mask on, really go down the pole  
But these hoes ain't got no cure for cancer
