Everybody know that I love to cop jewels
Everybody know that I wreck them pearls too
Everybody know that I do what I do
Everybody know coulda bought for the pack
Green Bay stacker
It's Versace money tracker
I done came through when I ball like Brett Favre
Four up in my chest and I'm headed like mars
Four feet tall and I'm still ready to ball

All these motherfuckers haters meet me at the mall
I done came through
Man, I ball like Santa Clause
I came through like Kentucky
They ballin' luckily I ball like Louisville
Four hundred degrees and I'm still poppin' pill
Still workin' wheels and I'm cold text
I done came through slide, slidin' through the text
Ballin' who's next
Fifty K up on my neck
Real

You spent that pass on your Rollie
The end but it sound like the homies
Since I got on it, be swayin', we homies
Playin' me close, they be swearin' they know me
My money got different agendas
We killin' them senseless
Diamonds be coverin' this without my Blinky be feelin' defenseless
She notice that everyone notice me
Look out, she tryna get close to me
Get naked and just do a show for me
Drive me around and then you could chauffeur me

Crib is as big as the mall
I just push ignore when they call
'Cause I be so into myself
Pour the rosé and fuck bein' poor
I'm a pro at slingin' meth

Gotta sip of lean
It turned purple with the Sprite, that's that methozine
That Audemar worth a couple causin' couple chains
And the bezel look like I get there to cocaine

I don't play no motherfuckin' game
I wanna buy me some diamond fuckin' chain
Don't play no motherfuckin' game
I wanna buy me some diamond fuckin' chain
I don't play no motherfuckin' game
Wanna buy me some diamond fuckin' chain
I don't play no motherfuckin' game
I wanna buy me some diamond fuckin' chain
