

Favorite Thrill

Right Said Fred

Given everything that I feel about ya
I could never carry-on loving without ya
You're my favourite thrill

Lover, lover stand oh no more than an inch from me
The stars favour us tonight
Lover, lover stand no no less than a clinch from me
A honeyed moon, a sugared sky
Saturn's burning bright
Desdemona shines
Venus says we're right

Given everything that I feel about ya
I could never carry-on loving without ya
You're my favourite thrill
Given everything that I know about ya
I could never carry-on loving without ya
You're my favourite thrill
On planet earth

Lover lover those who reach out to the galaxy
Get to have their milky way
Lover lover those who say cupid's a fallacy
Couldn't have seen you today

Saturn's burning bright
Desdemona shines
Venus says we're right

Given everything that I feel about ya
I could never carry-on loving without ya
You're my favourite thrill
Given everything that I know about ya
I could never carry-on loving without ya
You're my favourite thrill
On planet earth

Lover, the stars favour us tonight
Lover, a honeyed moon, a sugared sky
Saturn's burning bright
Desdemona shines
Venus says we're right
