

Here I Am

Right Said Fred

Here I am standing on the corner, wasting my time with you
Here I am standing on the corner, wasting my time again
Pretty girls learn how to get by with a smile
Pretty girls learn they can bend the rules for a while

Me, I've got no problem
It's just life going round and round
Time will come to rob them
A lonely heart can only make one sound

Here I am standing on the corner, watching it all go by
Here I am standing on the corner, watching it all go by
And pretty girls learn how to get a tear to tidal wave
Pretty girls learn how to break the hearts of the brave

There's no revolution
Faces change but the game's the same
Draw your own conclusion
When the whistle blows there's only you to blame

Me, I've got no problem
They try their luck and they spread their wings
Time will come to rob them
Another year, another pretty thing

Here I am standing on the corner, wasting my time again
Here I am standing on the corner, wasting my time again
