

Save Me

Right Said Fred

Save me from myself
At times I think I'm somebody else
Out of reach on that top shelf
Save me from myself
Save me, save me, save me

Save me from my nights
Sleepless hours putting the world to rights
But don't let the bed bugs bite
Save me from my nights
Save me, save me, save me

Save, save me
Save me from the man I am
Give me love I know you can
Save, save me
Save me from the man I am
Give me strength I know you can
I know you can

Save me from my tongue
At times my tongue leaves me undone
Too clever by half for some
Save me from my tongue
Save me, save me, save me

Save, save me
Save me from the man I am
Give me love I know you can
Save, save me
Save me from the man I am
Give me strength I know you can
I know you can

Save me from myself, from time to time I need a little help
Out of reach on that top shelf
Sometimes I need a little help
Sometimes I need a little help
Sometimes I need a little help
Sometimes I need a little help
Sometimes I need a little help

(Save, save me)
Save me from the man I am
Give me love I know you can
Save, save me
Save me from the man I am
Give me strength I know you can
I know you can
