

Sex Is the Common Ground

Right Said Fred

Sex is the common ground

We're told that love is roses
We're told that love is wine
It's estrogen, testosterone and dopamine
You're told that love is diamonds
You're told that love is true
It's a craving, it's adrenalin
It's me and you, cos

Sex is the common ground

Sex is the common ground

Sex is the common ground
Animal lust makes the world go around
Sex is the common ground
Animal, animal lust makes the world go around

I know that love is smoke
I know that love is fire
I know I need the chemicals but
They're not what I desire
What I desire is touch
What I desire is skin
What I desire are these two arms
To wrap my lover in

Sex is the common ground

Sex is the common ground

Sex is the common ground
Animal lust makes the world go around
Sex is the common ground
Animal, animal lust makes the world go around

Sex is the common ground, sex is the common ground

Chorus

Sex is the common ground, sex is the common ground
