

Silicon Journey

Right Said Fred

Making love, making babies
I've had enough of real life ladies
I don't miss that taste of honey
I'm kinda tired of you talking all my money

Every night, come what may
She's all smiles and lingerie
Oh I don't miss that taste of honey anymore

Oh yeah, she takes me
On a silicon journey
If you can't find me
That's where I'll be
Oh yeah, she takes me
On a silicon journey
If you can't find me
That's where I'll be

Making love, making babies
I've had enough of blind date crazies
I don't miss that taste of honey
I'm kinda tired of you taking all my money

Only now I can see
You would never set me free
I don't miss that taste of honey anymore

Oh yeah, she takes me
On a silicon journey
If you can't find me
That's where I'll be
Oh yeah, she takes me
On a silicon journey
If you can't find me
That's where I'll be

Making love making babies
I've had enough of if, buts and maybes
Oh, I don't miss that taste of honey

Oh yeah, she takes me
On a silicon journey
If you can't find me
That's where I'll be
Oh yeah, she takes me
On a silicon journey
If you can't find me
That's where I'll be
