

This Love

Right Said Fred

This love is lifting me up
This love is making me wilder
This love is calling the shots
This love is getting inside yer

This love is beating the drum
This love is paying the piper
This love is winding me up
This love, this love, this love

This love will last forever
Standing the test of time
And with our best endeavours
Love, love will be fine

This love will last forever
Standing the test of time
And with our best endeavours
Love, love will be fine

This love is licking its lips
This love is doing it big style
This love is swinging its hips
This love is making it worthwhile

And I know that the deserts are dry
And I know that the mountains are high
And I know when the good stuff arrives
Yes I know, yes I know, yes I know

This love will last forever
Standing the test of time
And with our best endeavours
Love, love will be fine

This love will last forever
Standing the test of time
And with our best endeavours
Love, love will be fine

This love, this love

I know that the deserts are dry
And I know that the mountains are high
And I know when the good stuff arrives
Yes I know, yes I know, yes I know

This love will last forever
Standing the test of time
And with our best endeavours
Love, love will be fine

This love will last forever
Tomorrow will testify
That if you're kissing clever
Love, love will be fine
