

## 'Til the Sun Goes Cold

Right Said Fred

Take it to the top and make the bassman drop  
Let the sun go down and wear no frown you know

You can resist me; you got no need to kiss me  
You got no aching, no lonely heart that's breaking  
Your nights are sleepless, your shining smile is sheepish  
I wish I felt for someone else

'Til the sun goes cold, I'll be waiting  
'Til the sun goes cold, I'll be waiting  
'Til the sun goes cold

I'm turning over, a new leaf just to show ya  
No tears no missing, no girl no chance of kissing  
You see grey face, well just keep watching this space  
I wish I felt for someone else

'Til the sun goes cold, I'll be waiting  
'Til the sun goes cold, I'll be waiting  
'Til the sun goes cold

Rubba dubba yeah-ah

Well, I'm still here girl, maybe you weren't my whole world  
After all a crush can crumble, the berlin wall did tumble  
I wish I fell for someone else

'Til the sun goes cold, I'll be waiting  
'Til the sun goes cold, I'll be waiting  
'Til the sun goes cold

I'll be waiting 'til the sun goes cold  
I'll be waiting 'til the truth gets told  
I'll be waiting 'til  
I'll be waiting 'til this record goes gold  
I'll be waiting, I'll be waiting
