

Yellow Metal Car

Right Said Fred

In my yellow metal car
In my yellow metal car
Ain't no Maserati
It gets me to the parties
In my yellow metal car

In my yellow metal car
It's who you're with not who you are
We had champagne and pizza
She's my Mona Lisa
In my yellow metal car

I got my hands on the wheels and we're driving around
Got my eyes on the road and my ear to the ground
Got a call from a friend so we're headed up town
Driving makes me feel good, driving makes me feel good

In my yellow metal car
No attitude no blah, blah, blah
Happy doing nothing, she keeps my engine running
In my yellow metal car

I got my hands on the wheels and we're driving around
Got my eyes on the road and my ear to the ground
Got a call from a friend so we're headed up town
Driving makes me feel good, driving makes me feel good

I got my hands on the wheels and we're driving around
Got my eyes on the road and my ear to the ground
Got a call from a friend so we're headed up town
Driving makes me feel good, driving makes me feel good

"This is unbelievable, this is traffic gone crazy
My advice is to stay at home"

In my yellow metal car
In my yellow metal car
Ain't no Maserati
It gets me to the parties
In my yellow metal car

In my yellow metal car
It's who you're with not who you are
We had champagne and pizza
She's my Mona Lisa
In my yellow metal car
