

## Become

## Righteous Vendetta

It was never enough  
(Yeah, to my life)  
Two lies one love into your trust  
It was all I could do  
(To keep the spark alive)  
I'll remember your words 'til the day I die

You brought this on  
Your words so strong  
You know this is wrong  
This war's just begun  
I hate the person you've become

It was always too much  
(I think I'm done)  
Two lies one word and I've had enough  
Now there's nothing to lose  
No regret this time  
I can never forget how I watched you die

You brought this on  
Your words so strong  
You know this is wrong  
This war's just begun  
I hate the person you've become

I hate... what you've become  
I hate... what you've become

You brought this on  
Your words so strong  
You know this is wrong

I'll remember your words 'til the day I die  
I can never forget how I watched you die

You brought this on  
Your words so strong  
You know this is wrong  
This war's just begun

I hate the person you've become  
I hate the person you've become
