

# Daemons

## Righteous Vendetta

Tonight...

This is no place for your eyes to wander out of line  
You might see something you can't shake  
It'll be stuck in your mind  
But your mind can be your greatest weapon  
Or your own worst enemy  
It just depends how far you let it go  
(Call me hopeful) call me crazy

Get out get out  
You'll never make it alive  
Without me you cannot survive  
Without me you die  
Get out get out  
There's only one way to end this  
It's never the way I intended  
Get out get out  
You'll never make it alive  
Without me you cannot survive  
Without me you die  
Get out get out  
There's only one way to end this  
It's never the way I intended

Tonight belongs to us  
A perfect night to fall in love  
When the darkness comes  
It gets dangerous  
Falling in love with my demons

The edge of sanity was never a safe bet  
A fine line never hurt anyone  
It just seems to get in my head  
But my head can be my greatest weapon  
Or my own worst enemy  
It just depends how much they get inside  
I keep my mind hidden when they get to me

Get out get out  
You'll never make it alive  
Without me you cannot survive  
Without me you die  
Get out get out  
There's only one way to end this  
It's never the way I intended  
Get out get out  
You'll never make it alive  
Without me you cannot survive  
Without me you die  
Get out get out  
There's only one way to end this  
It's never the way I intended

Tonight belongs to us  
A perfect night to fall in love  
When the darkness comes

It gets dangerous  
Falling in love with my demons

Falling in love with my demons

I keep my thought confined to every corner of consciousness  
That way the demons can't get to them

Tonight belongs to us

Tonight belongs to us  
A perfect night to fall in love  
When the darkness comes  
It gets dangerous  
Falling in love with my demons

I keep my thought confined to every corner of consciousness  
That way the demons can't get to them  
Demons!
