Deathwish

Righteous Vendetta

I've had a deathwish since the day I was born
It's just a product of those nights knowing you're not alone

But the walls they shake as my conscience fades
They circle around and pull me in by then I know it's too late

I sleep in the presence of ghosts
I keep it to myself, so nobody can know

We'll leave the world behind
Make me feel alive
It's not the same this time
Deathwish come to life
You've opened up my eyes
We'll leave the world behind
We'll leave the world behind
Deathwish come to life

I see the world you saved for me, you keep pressing me
You make the world seem insane to me
Keep me in the cycle, I'm out of my mind
So I'll be breathing you until you're finally taking me
And I'll be needing you until I don't need to breathe

I sleep in the presence of ghosts
I keep it to myself, so nobody can know

We'll leave the world behind
Make me feel alive
It's not the same this time
Deathwish come to life
You've opened up my eyes
We'll leave the world behind
We'll leave the world behind
Deathwish come to life
Deathwish come to life
Deathwish come to life

I sleep in the presence of ghosts
I keep it to myself so nobody can know

We'll leave the world behind
Make me feel alive
It's not the same this time
Deathwish come to life
You've opened up my eyes
We'll leave the world behind
We'll leave the world behind
Deathwish come to life

I sleep in the presence of ghosts
