

Losing Sleep

Righteous Vendetta

Light a candle
Turn all the lights down low
Baby, let's just lose control
Lose control

I can handle
Every single curve, you know
That I love you, let me show
Let me show

Fall into me
Let me breathe the air you breathe
I can take you anywhere you want to be
When it comes to us
Every single touch is something special
When we're wrapped up in those sheets

Yeah, we're winning when we're losing
Losing sleep

Real life
When it's this good, don't you know
We don't need to dream at all

Fall into me
Let me breathe the air you breathe
I can take you anywhere you want to be
When it comes to us
Every single touch is something special
When we're wrapped up in those sheets

Yeah, we're winning when we're losing
Losing sleep

Fall into me
Let me breathe the air you breathe
I can take you anywhere you want to be
When it comes to us
Every single touch is something special
When we're wrapped up in those sheets

Yeah, we're winning when we're losing
Losing sleep
When we're losing sleep, yeah
When we're losing

Light a candle
Turn all the lights down low
