

# Never Say Never

## Righteous Vendetta

Let the waves crash in  
I've been searching forever  
But I never say never  
Let the waves crash in  
Never again, never afraid  
Come to the waves and never escape  
Better late than never

Never say never  
There's always tomorrow  
We'll live forever  
Let's take our time there  
Bring me to my knees  
No longer will I bleed  
I will always have this fire  
On the flames build my empire

Deep inside I find the fire to fight that makes me whole  
I'd been searching forever but I never said never  
Let the waves crash in  
I'm better this way unleashed from the pain  
Found in the waves beyond my escape  
Better late than never

Never say never  
There's always tomorrow  
We'll live forever  
Let's take our time there  
Bring me to my knees  
No longer will I bleed  
I will always have this fire  
On the flames build my empire

I've been waiting for forever

Never say never  
There's always tomorrow  
We'll live forever  
Let's take our time there  
Bring me to my knees  
No longer will I bleed  
I will always have this fire  
On the flames build my empire
