

With Love

Righteous Vendetta

As I fell from the sky
The rushing wind awoke the sleeper inside
My heart

It's been a long time
It's been a long time since I've walked this place
I've been to the edge of the world
Oh...

How can we live
With the silence?
Can you feel it
Feel it, feel it
In your hands?

Woah! We have the power to change the world
Woah! With our love, with our love
Woah! We have the power to change the world
Woah! With our love, with our love

As I fell through the clouds
A light came down
I knew I could change the world
I know we can change the world

How can we live
With the silence?
Can you feel it
Feel it, feel it
In your hands?

Woah! We have the power to change the world
Woah! With our love, with our love
Woah! We have the power to change the world
Woah! With our love, with our love

(Woah!) Our voices will silence the end
Because in silence there are always things to mend
(Woah!) As I walk to the edge of the world
My heart begins, to sing again

Woah! We have the power to change the world
Woah! With our love, with our love
