memories

Ooh, uh
Ah-ha-ha
Yeah, uh-huh, that's right

Me as a kid would declare, I'm a star
Lonely as Mars
Heart and soul went into our memories
That smile in those snapshots, it's all you
Ooh-ooh-ooh, ooh-ooh-ooh

I was all in, fall in I'm fallin'
Ooh-ooh-ooh, ooh-ooh-ooh
Let's make memories again

Big flows, big flows
Takin' big steps
They soft, they soft
Wanna have rizz
For sure, for sure
We were one
East to the south
To the north to the west side
We RIIZE

I don't wanna waste all these feelings
These desires, I gotta taste
Don't wanna miss it
That's us, the glitterati
Don't wanna waste all these meanings
Hold tight and dream on
It's what I love the most
You with me, our memories

Touring the cosmos on private stages
My personal playlist to make y'all happy
At the center of the world take my chance
Make some noise
Days with patches of loneliness, by myself
What I'm feeling now is warm healing
Told ya, we gotta try, see, we're still together
Like this forever

Big flows, big flows
Gonna stick right by your side
They soft, they soft
I'll be your path forward
For sure, for sure
Gonna go farther
East to the south
To the north to the west side
We RIIZE

I don't wanna waste all these feelings
These desires, I gotta taste
Don't wanna miss it
That's us, the glitterati
Don't wanna waste all these meanings
Hold tight and dream on
It's what I love the most
You with me, our memories

Want these feelings that jumpstart my heart
These sensations are memories
Beautiful dreams
We shine, yeah, listen up
You're on fire, know I want ya
Want ya like that last piece of the puzzle
We all have our season to shine
Everyone shout now, awesome
Hearts aglow with our special colors
Wanna declare this the start of something

Time runs backwards

Even if we start all over again
Wanna change nothing
Memories
The world is ours

I don't wanna waste all these feelings
These desires, I gotta taste
Don't wanna miss it
That's us, the glitterati
Don't wanna waste all these meanings
Hold tight and dream on
It's what I love the most
You with me, our memories
