One kiss, one love
You're the one, girl
I just need you now (To be the one)

One kiss, one love

One kiss, one love
You're the one girl
Yeah, we got one love

Tell me why, girl
Why am I feeling sad to see
Each minute slip by
Tell me why, girl
We walk ever so slow
But too soon comes our goodbye

Each step we take side by side
This sweet silence of affection
Wanna know if you feel the same too
For no reason, I hold your hand tighter
Don't wanna lose you
No need to say it, I already know it

As if I've been waiting so long for you
It feels so much like that (when I see you)
You are one in a million, here in my arms
So instead of saying "goodnight"

One kiss, one love
You're the one girl
I just need you now (To be the one)
One kiss, one love

Tell me why, yeah
Could it be just us two
And stop everything else?
Tell me why, yeah
Make it so hard for me
To let you go, though I swear to, yeah

Spent the whole day together
Those split seconds between scenes
What did I look like looking at you?
That moment when you looked at me
I believe you're my only last time
Please feel the same, stay by my side

As if I've been waiting so long for you
It feels so much like that (when I see you)
You are one in a million, here in my arms
So instead of saying "goodnight"

One kiss, one love
You're the one girl
I just need you now (To be the one)
One kiss, one love

Wish I were your happiness
Gonna give my all to you, just for you
You alone are my happiness
The person I want for eternity
The only love in this world
That's changeless

For so long been heading towards you
Gives strange feels like that (When I see you)
Even after countless nights, I'm still here
And instead of "I love you"

One kiss, one love
You're the one girl
I just need you now (To be the one)
One kiss, one love
You're the one girl
I just need you now (To be the one)

One kiss one love
