

Keep On Hoping

Riley Clemmons

The weight of the world is getting heavier now
Feels like it's far too much to carry around
And each and every little time that you fall
Starts looking like the end of it all

Somewhere hidden in the noise there's a truth
Someone to believe and hang onto
In each and every little word that you hear
I pray that one thing would be so clear

With all those voices in your head
Just don't, don't ever forget
That God's still good
And He's still got it all in control

Come on and keep on hoping when the days get dark
Keep on singing, don't you ever lose heart
Lift your eyes, the One who gave you life
Will give you strength to keep on going
So keep on hoping
(Keep on Hoping)

What if the miracle's a moment away?
What if the morning's just about to break?
And all the innocence you thought that you lost
Was there inside of you all along

Come on and keep on hoping when the days get dark
Keep on singing, don't you ever lose heart
Lift your eyes, the One who gave you life
Will give you strength to keep on going
So keep on hoping
(Keep on Hoping)
Come on and keep on hoping
(Keep on Hoping)
You gotta keep on hoping
(Keep on Hoping)

There's hope for a better tomorrow
There's hope for joy over sorrow
'Cause God's still good
And He's still got it all in control

There's hope for a world that can change
There's hope for love over hate
'Cause God's still good
And He's still got it all in control

Come on and keep on hoping when the days get dark
Keep on singing, don't you ever lose heart
Lift your eyes, the One who gave you life
Will give you strength to keep on going
So keep on hoping
(Keep on Hoping)
Come on and keep on hoping
(Keep on Hoping)

And know that still
His promise will
Never be broken

Come on and keep on hoping like a soul set free
In every moment, every breath you breathe
Lift your eyes you're gonna be alright
You've got the strength to keep on going
So keep on hoping
(Keep on Hoping)
Come on and keep on
(Keep on Hoping)
Keep on hoping
(Keep on Hoping)
Keep on hoping
