

## Good Morning From Mexico

Riley Green

We had it all planned out, that honeymoon trip  
We's gonna head south of the border as soon as we got hitched  
Girl, I guess you had a change of heart  
My whole world began to fall apart  
And now you're wondering where I've been, and you just called c  
hecking in

Well, good morning from Mexico  
I found a little señorita and she don't wanna let me go  
We got us a bungalow  
And I've been living off of coconut and Modelo  
Thought I never would recover, find another lover  
Hell, I guess you never know  
So good morning from Mexico

Well, they must put something in the water down here  
Makes all your troubles just seem to disappear  
I heard folks say the sun is good for the soul  
Well, this white sand sure beats the hell out of snow  
So don't expect me home anytime soon  
I threw my passport in the pool

Good morning from Mexico  
I found a little señorita and she don't wanna let me go  
We got us a bungalow  
And I've been living off of coconut and Modelo  
Thought I never would recover, find another lover  
Hell, I guess you never know  
So good morning from Mexico

I appreciate you callin'  
But girl, before I let you go  
Let me tell you in Español

Buenos días desde Mexico  
I found a little señorita and she don't wanna let me go  
We got us a bungalow  
I've been drinking straight tequila and Modelo  
Thought I never would recover, find another lover  
Hell, I guess you never know  
So good morning from Mexico

It's a good morning in Mexico  
That's funky right there, man
