

BACK WITH YOU

RILEY

Oh-all this money it don't spend the same
If it's not on you, yeah
All this designer it don't look the same
When it's not on you, yeah
Oh and I put my pride aside
To tell you "I need you here in my life"
The worlds on fire, but I know I'll be alright
When I'm back with you

I've been up, broken down with my head in the clouds
Say you're here, say I'm better with you
You say my loves not enough and we're better apart
Just so you know, I'm stuck on you

And I will give my time but it's been wasted on us
And now I'm stuck, constant chasing of why-
Why I was worse to you? To you

Oh-all this money it don't spend the same
If it's not on you, yeah
All this designer it don't look the same
If it's not on you
You know that I put my pride aside
To tell you "I need you here in my life"
The worlds on fire, but I know I'll be alright
When I'm back with you

It's been ninty days since you've been away, yeah
You can't stand these games I play
And I wish that I could set aside
Now you don't call me by my first name
But you still call so I can't complain

I'll give my time but it's been wasted on us
And now I'm stuck, constant chasing of
Why I was worse to you? To you

Oh-all this money it don't spend the same
If it's not on you
All this designer it don't look the same
If it's not on you
You know that I put my pride aside
To tell you "I need you here in my life"
The worlds on fire, but I know I'll be alright
When I'm back with you

And everyone around you never thought I would be the one that you wanted too
They don't know the half of it, they've never seen the things we've been through, that's cool
I know that I'll be fine when I'm back with you-oh-o-oh, yeah
'Cause you know I just can't live without you
