

COLD SHOULDERS

RILEY

Ain't life a bitch
Or rather a dog you met outside
At some point you switched
Like all my exs you're wasting all my time That's spent
Drowning in
The hillys of Hollywood
And the Roosevelt
You act so tense
Saying that I'm a mess
I hope your life's no ups justs downs
And you never see me around

Now there's no jackets
For your cold shoulders
I got you covered won't you come closer
You said that I would get to hold ya
When hell freezes over

Now there's no jackets
For your cold shoulders
I got you covered won't you come closer
You said that I would get to hold ya
When hell freezes over

It is what it is
Or at least that's what they say bout it
You wanna be missed
But you'd rather run when life gets cloudy
You talk about us in the past tense
Like we never made sense ya ya
You say I'm honestly your downfall
Guess you made our last call

Now there's no jackets
For your cold shoulders
I got you covered won't you come closer
You said that I would get to hold ya
When hell freezes over

Now there's no jackets
For your cold shoulders
I got you covered won't you come closer
You said that I would get to hold ya
When hell freezes over

Now there's no jackets
For your cold shoulders
I got you covered won't you come closer
You said that I would get to hold ya
When hell freezes over

Freezes over
When hell freezes over
Freezes over
